Michigan Commission on Spanish Speaking Affairs

Strategic Plan Background
2007 - 2011

PURPOSE OF COSSA

The purpose of the Commission on Spanish Speaking Affairs (COSSA) is to develop a unified policy and plan of action to serve the needs of Michigan's Hispanic people. Public Act 164 of 1975 directs the Commission to:

1. Advise the Governor, the Legislature, and the office concerning the coordination and administration of State programs serving Hispanics.
2. Make recommendations to the Governor and the legislature regarding changes in State programs, statutes, and policies.
3. Advise the Governor and the Legislature of the nature, magnitude, and priorities of the problems concerning Hispanic people.
4. Review and approve grants to be made from federal, state, or private funds, which are administered by the office.
5. Secure appropriate recognition of Hispanic accomplishments and contributions to the State.
6. Review and approve the Annual Report prepared by the Office of Spanish Speaking Affairs.

We, the Commission and staff, have assumed an incredible responsibility on behalf of the Hispanics in Michigan to serve them by providing advice to the Governor and legislature on issues and programs. COSSA has the opportunity and responsibility to refine our Strategic Plan in the context of our purpose.

Our 2006 Strategic Plan included four key areas within our plan; Economic Development, Education, Leadership and Civic Engagement, and Legislative Advocacy. We will prepare and issue an annual report to reflect on our efforts and achievements against the objectives and milestones contained within the COSSA Strategic Plan 2006.

We have also reviewed the Strategic Plan to ensure that we are focusing on the right issues, directing our energies and resources towards the appropriate objectives and milestones, and fulfilling our purpose as the Commission on Spanish Speaking Affairs. Therefore, the Commission has revised the Strategic Plan to include three key areas; Economic Development, Education, and Legislative Advocacy and Civic Engagement. Included within each of the focus areas are general objectives and annual milestones that COSSA plans to achieve.

VISION OF HISPANICS FOR MICHIGAN

COSSA Mission Statement: Promoting the diverse interests of Hispanics in Michigan to have lives that are abundant with opportunity.

Nearly three years ago I sat with members of an earlier Commission and drafted the COSSA Mission Statement. We had lively discussion about the statement, the plan, and the milestones. It was a much different Commission then; we have been energized by Commissioners that are fiercely passionate and committed to serve the Hispanic community. I am privileged to serve alongside each of them.

During the 2006 Hispanic Heritage Month I was asked what was different about Hispanics from my parent's generation, my generation, and my children's generation. It is a very intriguing question and I hope you think about as well. My response was that the goal of my parent's generation was to be invisible; to fly under the radar and not make waves, to fit in without standing out, to stay out of trouble and to be grateful for what they got. The vision of my generation was the recognition of an emerging population that was teeming with promise and potential by way of; tremendous population growth, increase in leadership, significant social and political power, and economic strength that would have the business sector speaking Spanish. And, the promise of my children's generation is that we would have taken every opportunity to create a better world, not just for Hispanics, but for all; we owe it to those that come after us the assurance of success that results from hard work, the ability to influence decisions that affect their lives, and the legacy of greatness of those that have paved the way for an extraordinary quality of life.

COSSA has the responsibility to create a Strategic Plan. In doing so, we have the opportunity to determine what the most critical issues are for Hispanics and we have the responsibility to do something about them. We will hear and we should talk about educational attainment and success, economic development and employment, voter registration, voter participation, political leadership, legislative influence, health care, crime, housing, cultural competence, and many other issues.

We should also keep in mind the context of our work. The Hispanic population is the fastest growing group in the nation, it has flexed its economic strength by starting up businesses at a rate of 3 to 1 to other groups, it has surfaced in education by representing 11% of all undergraduate college students, and the giant was stirred from its political slumber by the attack on our immigrant brothers and sisters.

On the other hand, the Hispanic population remains underemployed and underpaid. Too many are failing or being failed by our schools and are dropping out. Our political potential has yet to be realized and our voting participation is dismally low and keeping from us gaining political respect and influence. Hispanics have a disproportionate risk of diabetes, heart disease, obesity, and

other chronic illness and they lack adequate health care and insurance to access services that would minimize the risk or treat the illnesses. The recent passage of Proposal 2 is a signal that there are many that resent the protection of minorities (including Hispanics) and females from discrimination.

The Hispanic population, despite its potential, is currently faced with critical challenges and COSSA members have been appointed and accepted the responsibility to actively engage to address those challenges. The positive point is that we don't have to do it alone. Our Governor is committed to hear our concerns, take our advice, and consider implementation of our solutions. I pleased Governor Granholm remains our ally for our causes. She knows that what is good for Michigan Hispanics is good for everyone in Michigan.

I thank the members of COSSA for dedicating their time, passion, and for their promise to work in the future for the interest of Hispanics in Michigan.

Three years ago we drafted a mission statement that is excellent and poses a continuing challenge. We have taken some little steps in fulfilling that mission. It's time to begin taking some big steps.

Juntos, vamos a progresar.

José L. R. Reyna, Chairperson
Michigan Commission on Spanish Speaking Affairs
